

FULL RISE SCISSORS SMART LIFT

AMGO XL-7 features both hydraulic and mechanical locks, ensuring it the safest lift in its class. This full rise lift works great for raising vehicle high enough to work underneath, and boasts a low profile design of only 4 5/8". With a straightforward installation and a No-Service-Required build, it offers ease of use and can lift up to 7,000lbs .

XL-7

Main Features

- ✓ 24V control system for safety operation.
- ✓ 24-Bar synchronous cylinders are applied to ensure the lifting level on both platforms.
- ✓ Hydraulic cylinders built with hoses burst valves for safety protection.
- ✓ Both mechanical and hydraulic locking system. It might be the safest scissor lift in the world.
- ✓ The safety stop device at the height of 11 7/8"(300mm), both control buttons are needed to lower down the lift from 11 7/8"(300mm) to ground with tone alarm for safety.

Both mechanical and hydraulic locks.

Adjustable control and electronic platform for larger vehicles.

Both 1 1/2" and 3" height rubber pads included as standard supply.

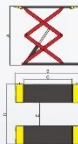

Low profile design, the lowest height is only 4 5/8"(119mm).

Optional Leveling kit. Recommended for trailer vehicles with narrow or wide frames. AMGO-76-320003.
