

# FULL RISE SCISSOR FLUSH-MOUNT LIFT

*AMGO's flush-mount scissor lift is designed to fit nicely into narrow bays and won't take up much of your precious floor space.*

## Main Features

- ✓ Features an electric/hydraulic power system.
- ✓ Dual synchronous cylinders assure even lifting on both platforms.
- ✓ Platforms are designed to be extended. It can be adjusted for any car type.
- ✓ The automatic safety device is operated by air cylinders.
- ✓ Electro-air control cabinet.
- ✓ With hydraulic equalization, there's no need for a torsion bar.

Automatic safety release.

Extended platforms.

Strong tubing makes the lift safer and more durable than the competition.

Leveling bar kits No.: SX703

Mechanical Safety Locks.

## SPECIFICATIONS
